

# S.W.A.T.™

## SECONDARY WARNING ALERT TECHNOLOGY

The S.W.A.T. is a device used in conjunction with a vehicle restraint to notify workers that caution should be used at the loading dock. The S.W.A.T. flashes the dock light when the restraint enters an alarm or warning state.

- Compatible with most restraints that have an alarm or warning state
- Compact design mounts in most locations, limits possibility of damage. Module Dimensions: 6.50" x 3.85" x 1.25"
- LED status light to indicate receptacle output status
- Flash rate 60 fpm
- Dry location use only
- Control Circuit Input: 2-Wire, 12-120 VAC/DC, 170 mW
- 120VAC, 1.5A fused receptacle for dock light
- Compatible with many dock lights (consult owners manual)
- ETL Listed
- 1 year limited warranty
