

Gates & Barriers

▼ Dock Impact Barrier™

▼ Dock Impact Barrier - LC™

▼ Work Safe Gate™

APS Resource can provide your facility with a Dock Impact Barrier or a Work Safe Gate to enhance the safety of your facility. Our easy to use Gates and Barriers help you comply with industrial safety standards.

Dock Impact Barrier

The Dock Impact Barrier can reduce the occurrence of accidents due to fork lift, pallet jack or pedestrians falling off the dock when the door is open.

Features:

- Stops a 10,000 lb. gross load at 4 mph
- 42" top rail meets OSHA standard for withstanding 200 lbs. of force from any direction
- High visibility yellow
- Protects overhead doors & tracks
- Sizes to fit: 6' Door, 7' Door, 8' Door, 9' Door and 10' Door

(Gas Spring Assisted)

Dock Impact Barrier - LC

While still meeting limited overhead clearance requirements, the Dock Impact Barrier - LC can reduce the occurrence of accidents due to fork lift, pallet jack or pedestrians falling off the dock when the door is open.

Features:

- Stops a 10,000 lb. gross load at 4 mph
- 42" top rail meets OSHA standard for withstanding 200 lbs. of force from any direction
- High visibility yellow with safety striping on the rails
- Protects overhead doors & tracks
- Overhead clearance reduced by 30"
- Sizes to fit: 8' Door, 9' Door and 10' Door

(Gas Spring Assisted)

Work Safe Gate

The Work Safe Gate provides excellent visual protection for personnel. The easy to operate gate lifts effortlessly out of the opening for complete access.

Features:

- 42" top rail meets OSHA standard for withstanding 200 lbs. of force from any direction
- High visibility yellow with safety striping on the rails
- Safety latch mechanism securely keeps gate closed and can be locked-out with padlock
- Easy operation; no electrical requirements
- Available in 6', 7', 8', 9' and 10' sizes

(Gas Spring Assisted)
