

Aerial Safety Lights

Design Highlights

- Dual corner mount LED lights provide high-visibility communication for clear aerial view
- Higher aerial mounting of lights can be viewed around or over lift truck loads
- Mimics same operation lights as the control panel
- High-visibility flashing LED lights provide years of durable life for added safety
- Low-voltage LED lights draw minimal energy
- This product carries a (2) year limited warranty with APS Resource

Technical Specifications

Input	12-24 VAC/DC
Certifications	UL and cUL approved

The Aerial Safety Lights are available for both inside and outside loading dock areas. The lights are dual LED red/green and placed in each of the top corners of the loading dock door as an extra safety measure.
