

Dual Chain

by APS Resource

Figure 1: Dual Chain suspended from J-Bolt

The Dual Chain is a set of strengthened security chains used to help protect workers from edge of dock accidents. This protective product is anchored into the door frame, stretches across the dock and secured in corresponding receivers. The Dual Chain is a cost effective, easily installed barrier option.

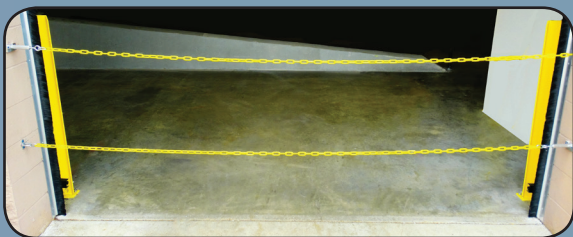

Figure 2: Dual Chain complete installation

Design Highlights

- High visibility yellow chain
- Meets OSHA standards for fall protection systems
- Attached to sides of door frame to enhance durability
- Simple manual operation; no electrical requirement
- Easy installation
- This product carries a (1) year limited warranty with APS Resource

Technical Specifications

Operation	Manual
Available Sizes	8', 9', 10' door capabilities
Industry Standards	42" top rail meets OSHA standard for withstanding 200 lbs of force
Construction Material	Aluminum
	Galvanized steel
