

Pipe Bollards and Bollard Covers

Figure 1: Two Pipe Bollard covers stationed near a building's exterior junction box

Adding APS Resource Pipe Bollards immediately enhances the safety of the facility and its workers. To protect the integrity of existing bollards, it's recommended to add a Bollard Cover. Bollard Covers fit securely over existing posts and come with two standard red or blue reflective safety stripes.

Figure 2: Pipe Bollards are a reliable and protective solution to equipment damage in a warehouse environment

Design Highlights

Pipe Bollards

- Protection for loading docks, door jambs and other in-plant areas susceptible to a moving vehicle collision
- Powder-coated safety yellow for high visibility
- Top cap and floor anchors included

Bollard Covers

- Enhance facility appearance
- Fit securely over existing bollard posts
- OSHA yellow; optional red or blue reflective strips
- These products carry a (1) year limited warranty with APS Resource
