

Security Gates

Figure 1: Single Slide Security Gate

Security Gates are cost-friendly products that primarily focus on access control but stresses visibility and enhanced air circulation as well. They are designed to secure receiving doors, doorways, service doors and hall and entrance ways.

Figure 2: Bi-Part Security Gate

Design Highlights

- Enhanced ventilation without sacrificing security
- Available in single-slide or bi-part designs with various widths and heights
- Meet security level requirements
- Portable styles obtainable
- Maintenance-free galvanized steel construction
- This product carries a (1) year limited warranty with APS Resource
