

Trailer Jack Heavy-Duty

Figure 1: Trailer Jack Heavy-Duty

OSHA recommends trailer stabilizers for unsupported trailers. Placed under the front frame of your semi trailers, the APS Trailer Jack Heavy-Duty helps reduce accidents from trailer-tip and landing gear collapse during loading and unloading.

Design Highlights

- 16" solid urethane tires for easy handling on any surface
- Powder-coated safety yellow
- 169 lb unit weight
- Service range of 39 1/2" to 51"
- Two-way reversible hand ratchet
- Ratchet screw design, reversible
- This product carries a (1) year limited warranty with APS Resource
