

Trailer Jack Standard

Figure 1: Trailer Jack Standard

OSHA recommends trailer stabilizers for unsupported trailers. Placed under the front frame of your semi trailers, the APS Trailer Jack Standard helps reduce accidents from trailer-tip and landing gear collapse during loading and unloading.

Design Highlights

- 16" solid urethane tires for easy handling on any surface
- Powder-coated safety yellow
- 160 lb unit weight
- Service range of 39 1/2" to 51"
- Threaded screw design
- This product carries a (1) year limited warranty with APS Resource

Technical Specifications

Lifting Capacity	Static: 100,000 lbs
	Lifting: 40,000 lbs
Cap Size	8" diameter
Wheels	Heavy-duty 8" semi-pneumatic
Base plate	14" diameter x 1/2"
Construction Material	Steel
