

Turbo-ES™ Fan

Figure 1: Multiple Turbo-ES Fan positions with High Impact Light additions

The Turbo-ES Fan produces a concentrated stream that forces hot, cold or stale air out from inside the trailer and replaces it with fresh air. This product is constructed of American-made, heavy-duty steel.

Figure 2: The Turbo-ES Fan increases air quality during operation

Design Highlights

- Made in the USA
- Includes 10' power cord
- Tapered cone provides focused column of air
- Less energy consumption for maximum air output
- Optional heavy-duty articulating arm for precise positioning
- Optional dock light head available
- This product carries a (2) year limited warranty with APS Resource

Technical Specifications

Output Power	1275 CFM
	1145 CFM
Input Power	120V, 60Hz and 3.3 amps
	220V, 50Hz and 1.6 amps
Construction Material	Heavy-duty steel
